Vision

We believe that every person is valuable and can make a big difference. Therefore, we want to inspire people of every nationality and offer them the opportunity to realise their own ideas, promote progress and make good things happen. Through networking, they can become part of a founding community connected by a strong network.

Mission

10CT's mission is to bring ideas with great value to life in a sustainable way. We promote projects, scout new ones and assemble the best team of developers and marketers to bring visions to life. We are passionate about blockchain and its potential to change the world.

With each new project, we want to sustainably promote our community. Through their participation in our growing, strong international community, they deserve a special added value as a thank you. We want to show our appreciation for their commitment by making each new project a unforgettable experience for all involved.

Experts

These guys have been in touch with cryptocurrency from different perspectives and they're all over a range of industries, which makes them uniquely qualified to teach others, about what it really means for business! Their enthusiasm is contagious - you'll be excited after meeting these inspirational personalities firsthand at community meetings.

“

“For years now we’ve weekly meet-ups as one group at 10CT, where ideas get kicked around among ourselves or discuss market trends together. But if there is anything significant going to happen, within our community, then I’m pretty confident that’s not going to happen without some serious brainstorming sessions first.”

10CT is an international team comprised of 10 individuals who have founded a Crypto Tank to promote sustainable projects with strong values and great utilities. Currently, the team has 6 projects in the works, with a new project launching after each sellout. The first project being promoted is "The Moon Society", with three Batches and a minimum NFT release of 10 000 NFTs per Batch.

At 10CT, we believe in the power of community and collaboration to drive positive change in the world. Our team is dedicated to identifying and supporting innovative projects that align with our values and have the potential to make a real impact.

Through our Crypto Tank, we aim to empower creators and entrepreneurs to bring their ideas to life, while also providing community members with the opportunity to support projects they believe in. By leveraging the benefits of blockchain technology, we hope to create a more transparent and equitable ecosystem for all "10CT Golden Ticket" holder.
